2013: 30 Years Young!

It is with gratitude that we commemorated Shalom's 30th anniversary in 2013. It has been a year of both celebration and sorrow. We were encouraged by the tremendous support for our 30th anniversary celebration, then saddened one month later by the death of Larry Martin, a valued board member.

The ups and downs of this past year were also reflected in the lives of those seeking counselling at Shalom. When people contact Shalom they are in a place of brokenness and struggle. The depth of pain and complex need in people's lives is at times overwhelming. It is a privilege for Shalom counsellors to work with people as they address their concerns and move beyond their challenges. People request counselling at Shalom for a broad range of issues. This past year the primary reason for seeking counselling was mental illness, predominantly depression and anxiety. The second most common reason for pursuing counselling was couple relationship struggles. We are committed to Shalom being a safe harbor in the storm of life for people in difficulty.

Supportive donors help to make counselling available for people from all income levels. In 2013, 90% of Shalom clients could not cover the cost of the service they received. We are grateful for the immense generosity that made it possible for Shalom to continue to provide accessible and affordable counselling services in 2013.

As we look to 2014 we invite your continued support of Shalom's work. The need for counselling services continues to grow. We have experienced a 26% increase in Shalom's services over the past two years. This growth, in combination with the frequent need for fee subsidy, underscores why donor support is so important. One response to this growth is Shalom's upcoming building project, "A Growing Home for Shalom." This project is proceeding, and we will keep you updated as details evolve in 2014.

Thank you for your continued commitment to the mission of Shalom: Helping People Grow Toward Peace and Wholeness.

In 2013:

- 4171 hours of counselling, consultation & resourcing were provided.
- 1230 people received service
- 90% of counselling hours required fee subsidy.
- 48% of counselling fees were from people with family incomes below the poverty line.
- Employees from 27 businesses and organizations received counselling through Shalom's Employee Assistance Program (EAP).

With gratitude for the generosity of support provided this year. Shalom's vision and mission is supported by a community of care, that indeed makes this work possible.

Sincerely,

Andrew Roth
